Executive Summary

ST HOPE LEADERSHIP ACADEMY CS - 310500860928

The New York State Education Department (NYSED) has developed the online *2022-23 Consolidated Application for ESSA-Funded Programs* to support the timely administration of ESSA-funded programs to local educational agencies (LEAs) across the state.

The application is streamlined to focus on the required assurances from Section 8306 of the ESSA, as well as fiscal and programmatic information that staff have determined is necessary to properly administer each program. The additional information requested in the application will allow NYSED reviewers to ensure that all LEAs are fully prepared to effectively address key provisions of ESSA regulations. For example, the application includes a significant focus on consultation with required constituent groups in the design of ESSA-supported programs. Even though LEAs will provide assurances that consultation has occurred, NYSED has determined that evidence of that consultation should be provided as part of the application process. Toward that end, documentation of the constituent groups included in consultation, along with a *Written Affirmation of LEA Consultation with Private School Officials Form* will be required as part of the initial application.

The online format dramatically improves NYSED's capacity to collect and analyze district-provided data in a timely manner, and then utilize that data to provide targeted support to LEAs as part of shared continuous improvement efforts. For example, the format will allow NYSED to quickly review LEA-determined per pupil amounts for Title I, Part A programs to confirm that funds for services are appropriately distributed among eligible public and non-public schools. For LEAs whose calculation methodologies are not clear or are not consistent with ESSA requirements, NYSED program staff will be able to provide immediate technical assistance to ensure the proper distribution of funds.

The online application also supports better coordination among NYSED program offices – furthering the Department's capacity to support continuous improvement through technical assistance. For example, consultation forms and other data related to equitable services to private school students and teachers will be shared with the Ombudsman to help coordinate technical assistance and monitoring efforts between the Office of ESSA Funded Programs and the State Office of Religious and Independent Schools. Similarly, data about an LEA's use of Title II, Part A funds will be easily shared with District and School Review Teams from the Office of Accountability and the Office of Educator Quality and Professional Development to help LEAs maximize the use of evidence-based professional development strategies in identified schools.

Questions about the *2022-23 Consolidated Application for ESSA-Funded Programs* can be directed to the Office of ESSA Funded Programs at 518-473-0295 or via email at conappta@nysed.gov.

ESSA Programs - Transferability

Page Last Modified: 08/15/2022

Transferability

As confirmed by the United States Department of Education (USDE), an LEA opting to use *Transferability* must calculate equitable service shares based on the total amount of funds available under a program *after* a transfer (ESEA section 5103(e)(1)). Just as an LEA may not transfer funds to a particular program solely to provide equitable services, it may not retain funds solely for this purpose. Thus, if an LEA chooses to transfer 100 percent of its Title II Part A or Title IV Part A funds to Title I Part A, it may not provide equitable services under Title II Part A or Title IV Part A.

- In the chart below, please identify funds subject to Transferability FROM either Title II or Title IV and the program area to which they are being assigned.**

Title I Part A - Program Information (Part 1 of 6)

ST HOPE LEADERSHIP ACADEMY CS - 310500860928

1. Did the LEA evaluate the progress made toward achieving the Title I, Part A program goals set for the previous school year?

- Yes, the LEA evaluated the progress made toward achieving the goals from the previous school year.
- No, the LEA did not evaluate the progress made toward achieving the goals from the previous school year.

1a. To what degree did the LEA make progress toward achieving the Title I, Part A goals from the previous school year?

- The LEA exceeded the goals it set for the previous school year.
- The LEA met the goals it set for the previous school year.
- The LEA did not meet the goals it set for the previous school year.

2. In the space provided below, please describe (1) the specific student needs that impact academic achievement, and (2) how your Title I, Part A program is designed to address those needs. The needs should be identified through a recent needs assessment, include homeless and/or neglected youth as applicable, and provide the basis for coordinated efforts on the part of the LEA to address them. (PLEASE NOTE - All program activities supported by Title I, Part A funding should be explicitly aligned with proposed expenditures represented in the FS-10 budget.)

St HOPE Leadership Academy Charter School (SHLA) assesses student needs through a formal review of student performance on New York State ELA, Math and Science exams as well as through internal interim and summative assessments such as the NWEA MAP baseline assessments in ELA and Math. This needs assessment ensures that our Title I programming, combined with all other coordinated efforts to foster increased student performance for at-risk students, is addressing identified needs in our school community.

Each year, we typically find that our incoming 6th grade students are significantly behind the national grade level norms, with approximately 60% at least two grade levels behind in ELA and 80% at least two grade levels behind in math. To address this need, interventions in ELA and Math and other supplemental supports are provided to all students who are struggling to demonstrate mastery of grade level standards as determined by ongoing assessment data. To accommodate this work, all math classrooms and 6th grade ELA classrooms have two teachers, regardless of whether the class is designated as ICT. In addition, ELA and Math teachers work with a designated instructional coach with expertise in the subject area as well as the Assistant Principal to ensure that they are setting and meeting rigorous instructional goals and to support the instruction of at-risk students. Title I funding will partially cover two of the co-teachers providing interventions and small group support as well as the Math Coach and Assistant Principal.

To support this work, we implement the NWEA MAP baseline assessments in ELA and Math at the start of each year. These exams provide us with critical individualized performance data for every scholar based on national grade level standards. We use this benchmark data in multiple ways, including:

- Building small targeted teaching groups in math to supplement math instruction
- Building book clubs in ELA to supplement ELA instruction
- Determining who participates in daily supplemental ELA Lexia instruction in 6th grade, and
- Working with each scholar to set specific goals in ELA and math each marking period

- 3. In the space below, please describe the specific goals and/or outcomes the LEA has identified based on the information provided above. The goals/outcomes should be measurable and aligned directly to the above identified needs impacting student achievement.**

Through the Title-I funded program activities and other efforts to meet the needs of students performing below grade level standards, SHLA expects to meet the following goals:

- Each grade cohort of scholars will beat the national growth expectations in ELA and Math set by NWEA, ensuring that our scholars grow faster as they move closer to being on grade level.
- Grade cohorts with less than 50% of scholars at grade level will increase the overall percentage of scholars on grade level by at least 5%. This ensures that scholars are not just growing, but that the actual number attaining grade level also increases.

Title II Part A Program Information

ST HOPE LEADERSHIP ACADEMY CS - 310500860928

1. Did the LEA evaluate the progress made toward achieving the Title II, Part A program goals set for the previous school year?

- Yes, the LEA evaluated the progress made toward achieving the goals from the previous school year.
- No, the LEA did not evaluate the progress made toward achieving the goals from the previous school year.

1a. To what degree did the LEA make progress toward achieving the Title II, Part A goals from the previous school year?

- The LEA exceeded the goals it set for the previous school year.
- The LEA met the goals it set for the previous school year.
- The LEA did not meet the goals it set for the previous school year.

2. In the space provided below, please describe (1) the specific student and/or teacher needs that impact academic achievement, and (2) how your Title II, Part A program is designed to address those needs. The needs should be identified through a recent needs assessment, and should provide the basis for coordinated efforts on the part of the LEA to address them.

(PLEASE NOTE - All program activities supported by Title II, Part A funding should be explicitly aligned with proposed expenditures represented in the FS-10 budget.)

Each year, St HOPE Leadership Academy Charter (SHLA) designs its Professional Development Plan using multiple data points, including student achievement data (mastery of grade level standards as determined by NWEA MAP testing, state testing, and department benchmark/interim assessments); classroom instructional observations performed by school leadership/instructional coaches; teacher surveys; teacher qualitative feedback groups; and results of the goal setting work and Danielson Framework performance of our teaching staff. Following this review, SHLA's specific teaching needs continue to be strengthening daily learning targets, defining student mastery levels and using data to set and measure individual academic goals.

In response, all of SHLA's Title II funded initiatives for teachers and instructional staff are targeted to improving scholar mastery of grade level standards in all academic areas, with a primary focus on ELA and math. These initiatives to support, build and strengthen the instructional capacity of teachers are managed by the school's ELA and Math Coaches, under the supervision of the Principal and the Assistant Principal. Under the Danielson Framework as a guide, the Coaches work with teachers to reflect on their classroom practices and set individual pedagogical goals. Title II funding will partially cover the salaries of the Math Coach and the Assistant Principal.

To assist them in meeting these goals, teachers meet weekly with their coach and receive ongoing coaching, including modeling instruction, grading, leading small groups, and helping design curriculum. Coaches also ensure that teachers are supported in their goals through work with other instructional leaders, their peers (through grade team meetings, department meetings, peer observations), and external workshops. Every staff member has up to \$2,000 annually to attend external professional development related to improving their practice.

Every Friday, students are dismissed early so that teachers can engage in a full afternoon of designated professional development. In addition to short sessions that meet once annually (i.e. Building Safety Protocols), there are three types of professional development that occur each Friday (typically one per month) – Leaders of Their Own Learning, Restorative Practices, and Extended Grade Team Meetings. The once per month Extended Grade Team Meetings provide teachers and counselors time to analyze grade-level student performance data and determine if further scholar intervention, including RTI referral, is recommended. Significant department time is also provided to either the STEM team (math and science) or the Humanities team (ELA and social studies) every other Friday morning. This ensures that each department has adequate opportunity to look at student work/data and plan at least twice per month, including time with the Director of Student Support Services to ensure teachers are up-to-date on SPED scholar needs. The team that teaches that Friday also has extended class periods to conduct science labs (on STEM Friday) or social studies research (on Humanities Friday).

Our model of professional development has played a significant role in our being able to create a sustainable learning environment where academic rigor is valued; where all decisions are informed by data; where all stakeholders are self-reflective in order to improve and meet the standards to which they are held accountable, as individuals and as a collective community; and where collaboration is at the heart of our professional learning community.

- No, the LEA did not evaluate the progress made toward achieving the goals from the previous school year.

1a. To what degree did the LEA make progress toward achieving the Title IV, Part A goals from the previous school year?

- The LEA exceeded the goals it set for the previous school year.
- The LEA met the goals it set for the previous school year.
- The LEA did not meet the goals it set for the previous school year.

2. Does the LEA have a Title IV, Part A allocation equal to or greater than \$30,000 prior to transferability?

- Yes, the LEA has a Title IV, Part A allocation equal to or greater than \$30,000 prior to transferability.
- No, the LEA does not have a Title IV, Part A allocation equal to or greater than \$30,000 prior to transferability.

2e. In the space provided below, please describe (1) the specific student needs that impact academic achievement, and (2) how your Title IV, Part A program is designed to address those needs. The needs should be identified through a recent needs assessment, and should provide the basis for coordinated efforts on the part of the LEA to address them. If an LEA is transferring 100% of its Title IV, Part A allocation, please identify the specific needs that informed the decision to transfer.

(PLEASE NOTE - All program activities supported by Title IV, Part A funding should be explicitly aligned with proposed expenditures represented in the FS-10 budget.)

As part of its annual review of all school programming prior to the start of the 2022-23 school year, St HOPE Leadership Academy Charter School (SHLA) considered its needs for supplemental initiatives focused on the defined programming for Title IV, Part A. In our review, however, we determined that our need to provide additional professional development and coaching for our teaching staff far outweighed the need for more enrichment programming. Therefore, we decided to exercise the option to utilize Title IV funding for Title II programming, using the Title IV funding to partially cover the salary of the Math Coach.

All of SHLA's professional development initiatives for teachers and instructional staff are targeted to improving scholar mastery of grade level standards in all academic areas, with a primary focus on ELA and math, and this is our primary focus and most immediate need as we work to improve student learning. We are confident that we are providing a rich and supportive learning environment for our students and that our current enrichment programs are strong.

2f. In the space provided below, please describe the goals, objectives and intended outcomes of the Well Rounded Educational Opportunities, Safe and Healthy Students, and/or Effective Use of Technology content areas of the Title IV, Part A program based on the results of a recent needs assessment.

Through the professional development plan partially supported by Title II, Part A, SHLA expects to meet the following goals:

- At least 80% of teachers will demonstrate mastery of setting rigorous, measurable learning targets each day. *This goal was met.*
- At least 70% of teachers will demonstrate mastery of defining student mastery of learning targets. *This goal was not met. Due to the transition from fully remote and then hybrid learning in 2020-2021 to fully in-person in 2021-2022, this was on pause with a renewed focus during the 2022-2023 year.*
- At least 90% of teachers will have a system in place to collect daily data on student mastery of learning targets. *This goal was not met and is in progress. Due to the transition from fully remote and then hybrid learning in 2020-2021 to fully in-person in 2021-2022, this was difficult to assess and is on pause.*
- At least 80% of teachers will demonstrate the ability to set and measure individual academic goals with 100% of their scholars. *This goal was not met and is in progress.*
